Research projects: jonaso.de/projects

Artworks: jonaso.de/artworks

Web development: jonaso.de/portfolio

Skills

RESEARCH:

- **Data analysis:** Quantitative analysis (Python/R/Excel) and qualitative methods (thematic analysis)
- **User experience research:** Planned, designed, and executed user studies (laboratory experiments, interview studies) and randomized controlled trials
- **Idea implementation:** Designed, developed, and evaluated web-based and cross-device applications

MANAGEMENT:

- **Supervision:** Supervised and mentored research assistants and students (Bachelor/Master)
- **Recruitment:** Interviewed new team members (Post-docs, PhDs, research assistants)

COMMUNICATION:

- **Collaboration:** Collaborated with colleagues and external research partners to achieve new breakthroughs in research and innovation
- **Relationship building:** Established collaborations with leading universities and professors
- **Public speaking:** Presented at international conferences
- **Teaching:** Teaching HCI to classes of ≈ 150 students

ORGANIZATIONAL:

- **Time management:** Self-dependently planned and conducted research projects under multiple deadlines
- **Event planning:** Organised events and workshops (CHI workshops, summer school, scientific conference)

Education

Oct 2021 **Doctor of Science (Tech.)**, Computer Science (distinction) *University of Oulu, Finland*

Nov 2015 **Master of Science**, Computer Science (distinction) *University of Southampton, United Kingdom*

Aug 2013 **Certificate in Business Analysis** *School of Continuing Studies, University of Toronto, Canada*

Mar 2011 **Diplom-Wirtschaftsingenieur**, Industrial Engineering *TU Darmstadt, Germany*

Research and Teaching Experience

Feb 2022 – Present **Postdoctoral Researcher** *University of Jyväskylä, Finland*

Apr 2021 – Aug 2021 **Senior Researcher/PostDoc** *FIZ Karlsruhe/Karlsruhe Institute of Technology, Germany*
Ontology engineer in NFDI initiative: Design, implement, and manage the NFDI4Culture knowledge graph

May 2018 – Apr 2021 **Doctoral Researcher** *Center for Ubiquitous Computing, University of Oulu, Finland*

- Investigated creative work on non-creative crowdsourcing platforms with a value-sensitive approach
- Designed, implemented, and evaluated crowd feedback systems and creativity support tools
- Teaching Human-Computer Interaction (≈ 150 students) and Social Computing (20 – 65 students)

Aug 2016 – Apr 2018 **Researcher** *Human-Centered Computing, Freie Universität Berlin, Germany*

- Designed and developed socio-technical systems and crowdsourcing work flows for facilitating knowledge transfer
- Supervision of bachelor and master students

Aug 2016 – Mar 2017 **Researcher** *Cluster of Excellence “Image Knowledge Gestaltung”, Berlin, Germany*

Work Experience in Industry

May 2016 – July 2016 **Web Developer** (Full-Stack) *Liip AG, Bern, Switzerland*
Full-stack development of web applications in an agile Scrum team

Oct 2015 – Apr 2016 **Developer** (Full-Stack) *Seme4 Ltd., Southampton, United Kingdom*
Developed SkillsPlanner.net linked data platform and CKAN tool suite advancing fair and open data

Aug 2013 – July 2014 **Business Analyst** *Alstom IS&T, Paris, France*
Maintained IT service catalogue, designed user-facing IT services, conducted price analysis

June 2011 – Mar 2012 **Strategy Analyst Trainee** *Alstom Power, Baden, Switzerland*
Ad-hoc support for strategic management

Aug 2008 – Jan 2013 **Full-Stack Web Developer** (Freelance) *Darmstadt, Germany*
Conceived, built, and maintained several web applications, including an online community with over 228,000 members)

Scholarships and Grants

Nokia Foundation Scholarship (2020 and 2019), Wihuri Foundation Grant (2020), Takasen Foundation Scholarship (2020), Finnish Foundation for Technology Grant (2020), Tauno Tönning Foundation Grant (2020), University of Oulu UniOGS grants (2019 and 2020), ACM SIGCHI travel grant (2019), Erasmus Sokrates Scholarship (2005)

Certifications and Licenses

Design Thinking (2021), Scrum Product Owner (2020), Scrum Master (2014), ITIL v3 Foundation (2014), PMI-certified Associate in Project Management (2014), Certificate in Business Analysis (2013), Quality Manager (2013), SAP TERP10 Certified (2013), Zend Certified Engineer PHP 5 (2010), Business English Certificate Higher (2009)

Technical Skills

Technical skills: Languages: Python, JavaScript, TypeScript, R, PHP. Machine Learning: Pandas, PyTorch, Jupyter, Huggingface Transformers, spaCy, Scikit-learn, seaborn, XGBoost, SHAP. Web development: React, Svelte/sveltekit, Vue.js, Node.js, REST, OpenAPI/Swagger, CKAN, D3, Networkx, Wordpress, Elasticsearch, Django, Flask, HTML, JSON, CSS, Sass. NLP: nltk, spaCy, LDA topic modelling. Cloud: AWS, CSC.fi HPC environment (Puhti/Mahti), Google Colab, Google Cloud. Mobile development: Apache Cordova, Capacitor, Monaca, Expo, ReactNative. Databases: MySQL, GraphQL, PostgreSQL, MongoDB, ElasticSearch, Redis. Virtualisation: Docker, Vagrant, Ansible. Tools: Git, GitHub, Jira, Confluence, Webpack, yarn, npm, Fabric, Puppeteer, svm. Crowdsourcing: Amazon Mechanical Turk, Prolific. Office: Microsoft Excel, Word, L^AT_EX, Google Docs, Visual Basic (VBA). Semantic Web: RDF, OWL, SKOS, SPARQL, triple stores, JSON-LD, knowledge graphs, Protégé.

Languages

English (working language; TOEFL 114/120, IELTS 8)

German (Mother tongue)

French (4 years, uncertified)

Publications

30+ publications, including 4 journal articles and 9 full conference papers, with 30+ co-authors

[Google Scholar profile](#)

Projects

Artworks created with text-guided image generation (since 2021)

jonaso.de/artworks

Selected research projects

Prompt engineering for text-to-image generation (2021 – 2022)

Prompt engineering is the practice of formulating effective input prompts for artificial intelligence. This project investigates prompt engineering in the context of AI-generated art.

Crowdsourcing creative work (2018 – 2021)

This doctoral research project investigated how creative work is experienced by workers and requesters on non-creative crowdsourcing platforms.

CrowdUI crowd feedback system to support web design (2020) – www.crowdui.com

CrowdUI is a system for co-designing webpage with the website users. Website visitors can manipulate the elements of the webpage and peer-evaluating the user-created layouts.

DUPLEX situated feedback system (2019) – github.com/joetm/perdis-client

A concept for a public display installation that allows artists to collect feedback from a situated crowd. One digital artwork is shown on the main screen while feedback is entered on a touchscreen.

IKON – Knowledge transfer in research museums (2016 – 2018)

An information architecture and visualisation on a public display for facilitating knowledge transfer among the researchers at the Museum for Natural History in Berlin.

Selected software and web projects

sameAs-Lite (2016) – github.com/sem4/sameAs-Lite

A co-reference resolution service offered as open source and implemented with object-oriented PHP.

SBB Pilot Open Data Platform Public Transport Switzerland (2016) – opentransportdata.swiss

An open data store for transport in Switzerland. Work included developing extensions for CKAN.

Eurapco Trend Monitoring Platform (2016) – www.eurapco-trends.com

Developed a web platform for monitoring trends (Python/Django, Vue.js)

GFBio Terminology Service website (2016) – terminologies.gfbio.org

Design of the web presence of the GFBio Terminology Service.

SkillsPlanner Linked Data Platform (2015 – 2016) – www.skillsplanner.net

Developed Skillsplanner linked data platform, including data conversion tools and documentation.
